

Math A4500: Dynamical Systems
Presentation: Grading Rubric

Student's Name:

Organization: The level of the mathematics was appropriate for the audience. The information was presented in a logical sequence. An appropriate amount of material was prepared. Length of the presentation was within the allotted time of 10-15 minutes. *(25 points)*

Mathematics: Mathematical concepts were made clear. Necessary definitions were provided. Theorems were stated clearly. Examples were well chosen. Proofs (if provided) were clear. Time spent on different topics reflects their relative importance. *(40 points)*

Slides: The slides were readable. They contain the most important mathematical information. *(15 points)*

Oral presentation: The speaker's voice was clear. Information was conveyed well orally. *(10 points)*

Citations: Citations were included and appropriate. *(10 points)*
